The NVOMD aims to promote Veterinary Orthomanaul Medicine in the broadest sense and look after its members interests.

The NVOMD tries to achieve these goals by:

- Promotion of the integration of Veterinary Orthomanaul Medicine with regular veterinary medicine;
- Realization of an optimal training for Veterinary Orthomanaul Medicine and guarding the quality of the training;
- Promotion of the expertise of its members by training;
- Stimulation and coordination of scientific research in the field of Veterinary Orthomanaul Medicine;
- Communication with relevant social organizations in order to promote and maintain the social recognition of Veterinary Orthomanaul Medicine;
- Representation of its members at (semi)governmental organizations, political organizations and professional organizations;
- Foundation, maintenance and management of an independent register of quality, or founding and organization to perform this task, or commissioning an independent organization to perform this task;
- Promotion of the institution and maintenance of a complaints procedure concerning its members;
- Promote the knowledge of Veterinary Orthomanaul Medicine in every respect and in all sections of society;
- Look after the interests of Veterinary Orthomanaul Medicine and NVOMD members by all legal means;

All in the broadest sense and not exhaustive.
